## FULL COLOR

Microtech Systems, the leading developer and manufacturer of automated disc duplication & publishing systems, has launched a new "automation ready" disc printer, the Xstreamjet Printer.

The Xstreamjet Printer brings professional quality to in-house production of discs, enabling users to print outstanding photo quality images directly onto the surface of discs.

Paired with Microtech's Xpress Family of automated disc duplicators, the Xstreamjet provides fast, professional quality and unattended printing of discs 24/7.

## DISCPRINT SOFTWARE

Microtech's own premium DiscPrint software is the tool used for designing and printing images and text directly onto media, for a completely professional presentation.

The quality rivals silk-screened discs from replication houses, but unlike pressed discs, our software allows you to generate dynamic text, supporting text and graphic files, enabling your creativity to be the guide.

Most popular graphics software programs can be used, simply save files as PDF or PRNs.

## FAST & VERSATILE

Whether you duplicate discs for audio, music, software, video or data, Microtech's powerful Inkjet printers deliver all the performance you need for high volume, high quality disc printing.

With industry-leading 4800 dpi print resolution and 16.7 million colors, printed discs will have the sharpest text and graphics. Colors are bright, vibrant and photo-quality. Your discs will look truly professional, creating a positive and lasting impression.

## INK CARTRIDGES

For your convenience, Microtech provides Media Solutions to keep your jobs running around the clock. Please contact our sales team for more information.
